5. Additional explanation

- Transportation primary data was difficult to obtain, those items were calculated by the PCR method.
- The stage of use and maintenance was excluded from the calculation by the PCR method.

6-1. Supplementary environmental information

- Produced at the 「ISO9001(MY97/10883),ISO14001(MY02/56146)」 factory
- It is expected that this product, which will be dismantled in the future, will be reused through material recycling.
- Using wood core material has the effect of fixing carbon dioxide absorbed by the wood.

6-2. Regulated hazardous substances

Substance	CAS No.	Reference to standards or regulations
Methylenebis(4,1-phenylene)diisocyanate	101-68-8	Pollutant Release and Transfer Register Industrial Safety and Health Act
