5. Additional explanation

Calculated in the following conditions;

- · Printing paper is not considered.
- \cdot Expected use period is 3 years.
- \cdot The standard scenario for Multifunction Device (IJ type).
- · US market.
- Print volume: 7,200 sheets.
- The applied Energy Star program version is 3.0.

We evaluated the Ecoleaf with Canon's own data of raw materials weight and the general basic unit for the parts because it is difficult to collect the data for a couple of thousands of parts. Accordingly, the results may be different from the specific product specification. As such, please be advised that this result would be a rough estimate.
