5. Additional explanation

Products selected in the scenario used for load calculation

--MFP (EP)

- Product destination: JPN
- Expected usage period: 5 years
- Estimated number of sheets:297600 sheets ※

※Apply the number of sheets according to the actual usage conditions based on the product performance

※Compatible with International Energy Star Program Ver.3.0

-The load on the image output medium (printing paper) is not included.

-This product uses reused parts to reduce the environmental impact. It is not included at the raw material acquisition stage in the LCA

6-1. Supplementary environmental information

Compliant with the International Energy Star Program Ver.3.0. It also complies with the European RoHS Directive.

Assembly production of this product and production of the main parts, photoconductor and toner, are carried out at an ISO14001 certified factory.

Certification number: JQA – E-70001
