

Japan EPD Program by SuMPO

Sustainable Management Promotion Organization 14-8, Uchikanda 1-chome, Chiyoda-ku, Tokyo Japan https://ecoleaf-label.jp/

Canon Inc.

imageCLASS MF746Cx(For AU)

Functional unit	Registration#	JR-AI-23056C
Per unit product	PCR number	PA-590000-AI-05
	PCR name	Imaging input and/or output equipme
System boundary	Publication date	4/5/2023
■ final products □intermediate products	Verification date	2/24/2023
Raw Material acquisition, Production, Distribution,	Verification method	System certificaion
Use & maintenance, and End-of-Life stage	Verification#	JV-AI-23056C
	Expiration date	2/23/2028
Main specifications of the product	PCR review was conducted by:	
Model name: imageCLASS MF746Cx(For AU) Specifications • Multi Functional Printer (Electrophotography) • Print Speed : Up to 27 ipm (A4) • Duplex printing • Weight: approx.24.5kg(Cartridge not included)	Approval date	1/6/2023
	PCR review panel chair	Masayuki Kanzaki
		Sustainable Management Promotion Organizatio
	Third party verifier*	
		Hiroyuki Uchida
Company Information	Independent verification of data & declaration in accordance with ISO/TS14067	
Canon Inc.		
30-2, Shimomaruko 3-chome, Ohta-ku,		
Tokyo 146-8501, Japan +81-3-3758-2111		

*Auditor's name is stated if system certification has been performed.

Registration number : JR-AI-23056C

Carbon Footprint of Products CFP Declaration

Registration number : JR-AI-23056C

1. Quantification results, and contents of the declaration CFP quantification unit : Parameter Unit **CFP** Quantification results 1200 kg-CO₂eq 290 kg-CO₂eq Raw material acquisition reakdown 8 Production kg-CO₂eg 18 Distribution kg-CO₂eq 830 kg-CO₂eq Use & maintenance ň End-of-Life 39 kg-CO₂eq Value on CFP mark 1200 kg-CO₂eq Unit for the value on CFP mark Per unit product

*Quantification results may slightly differ from the sum of the breakdown due to rounding of fractions.

Sustainable Management Promotion Organization 14-8, Uchikanda 1-chome, Chiyoda-ku, Tokyo Japan https://ecoleaf-label.jp/

3. Supplementary environmental information

• Complies with the EU RoHS Directive (2011/65/EU) and its amendments including 2015/863/EU.

• Manufactured at ISO 14001 certified factories.

2. Additional information Calculated in the following conditions; 3% • Printing paper is not considered. Raw material The standard scenario for Multifunction Device (EP acquisition 25% Production 1% type). • Australia market. Distribution • Print volume: 105,300 sheets. ■Use & maintenance 70% • The applied Energy Star program version is 3.0. ■End-of-Life

4. Interpretation

• CO2 emission in Use & maintenance is the largest as 70%. It is important to save energy during product usage, to make the life time of consumables(e.g. drum) longer and to reduce amount of toner used when printing. The condition in this CFP evaluation can be different from the one which the user operates under. A choice of the use condition (print mode, print conditions and so on) can reduce the CO2 emission during Use & maintenance stage.

 \cdot CO2 emission in Raw material acquisition is the second largest as 25%. It is important to reduce the size and weight, and to use low environmental impact materials.

 \cdot We evaluated the CFP with Canon's own data of raw materials weight and the general basic unit for the parts because it is difficult to collect the data for a couple of thousands of parts. Accordingly, the results may be different from the specific product specification.

As such, please be advised that this result would be a rough estimate.

5. Assumptions of secondary data used

IDEA v2.1.3, and registered data of Japan EPD Program by SuMPO, JLCA data v1.13 are used.

6. Remarks

- For data quantification, please refer to PCR and Rules on quantification and declaration.

- Comparative assertion is permitted only when Rules on quantification and declaration are satisfied. (Reference URL : https://ecoleaf-label.jp/regulation/)

- The CFP only addresses the single impact category of climate change and does not assess other potential social, economic and environmental impacts arising from the provision of a product.
